RIZKY EKA HARYADI

+6282120216687 rizky28eka@gmail.com Rizky Eka Haryadi

Informatics undergraduate student with hands-on experience in building cross-platform and native mobile apps using Flutter, Kotlin, and SwiftUI. Skilled in scalable web development with Laravel and React.js. Proven ability to deliver responsive, user-focused solutions through freelance projects and internships. Passionate about UI/UX and emerging technologies in mobile and web ecosystems.

SKILLS

- Dart, Flutter, Kotlin, Java, Swift, Laravel, React.js, Next.js, Express.js, Node.js | Firebase, MongoDB, MySQL, PostgreSQL, SQLite, Cloudinary, Amazon S3 | Git, GitHub, GitLab, Android Studio, VSCode, Xcode, Postman | Figma, Canva, Adobe XD
- English, Indonesia

WORK EXPERIENCE

Mobile & Web Developer   Bilcode   Cireboon, Indonesia   01/25 – 11/25

- Contributed to the development of cross-platform mobile apps using Flutter and Kotlin, improving feature delivery speed by 30%.
- Assisted in building and maintaining scalable web applications with Laravel and React.js.
- Collaborated with a small team to deliver custom software solutions for local businesses in Cirebon.
- Enhanced application performance by optimizing database queries (MySQL & PostgreSQL), reducing average load time by 20%.
- Worked closely with clients to gather requirements, present prototypes, and ensure successful deployment.

Freelance Developer   Self-employed   Remote, Indonesia   08/22 – Now

- Delivered 10+ cross-platform mobile apps using Flutter (Dart) and native Android with Kotlin.
- Designed and developed 5+ responsive websites with Laravel (backend) and Next.js (frontend), ensuring scalability and high performance.
- Integrated machine learning models (sentiment analysis, recommendation system, predictive analytics) into mobile applications.
- Managed full-cycle development: requirements gathering, UI/UX design, development, deployment, and client training.
- Achieved 100% on-time delivery rate with consistently high client satisfaction.

IT Support Intern   PT Telkom Indonesia   Yoogyakarta, Indonesia   06/21 – 09/21

- Provided daily technical support for 100+ employees, resolving both software and hardware issues.
- Assisted in migrating company data from on-premise servers to Amazon S3 cloud storage, improving data accessibility.
- Developed internal IT solutions that improved network uptime by 15%.

Web Developer Intern   PT Global Future Technology   Bandung, Indonesia   01/21 – 04/21

- Maintained and optimized company websites using Laravel and React.js, improving site reliability.
- Collaborated with a development team to reduce website load time by 20% through backend query optimization and frontend rendering improvements.
- Built and deployed new features, including dynamic contact forms and a custom CMS, enhancing user engagement.
- Mentored and guided students at STMIK Sumedang in Android development best practices.

Kotlin Trainer   IDN Boarding School   Remote, Indonesia   07/21 – 09/21

- Delivered structured online training sessions for beginner Android developers using Kotlin.
- Created step-by-step learning modules, resulting in positive participant feedback and improved learning outcomes.

Laravel Trainer   IDN Boarding School   Bogor, Indonesia   04/21 – 06/21

- Trained 70+ students and lecturers in Laravel web development (MVC, routing, templating, database integration).
- Supervised final projects including e-commerce web applications with dynamic product management.
- Conducted hands-on coding sessions to improve participant competency.

PROJECT EXPERIENCE

Fullstack Developer   Bilcode ID   Cirebon, Indonesia   01/25 – 06/25

- Developed a company profile application for Bilcode with smooth interactive animations using GSAP and modern UI frameworks.
- Focused on responsive design and performance optimization to ensure seamless user experience across devices.

Mobile Developer   Harmoni Sehat   Jakarta, Indonesia   07/24 – 08/25

- uilt a health monitoring mobile app enabling users to track daily health metrics and receive real-time insights.
- Integrated data visualization dashboards and notification systems to improve user engagement.
- Ensured security and privacy compliance with Firebase Authentication and cloud storage.

Mobile Developer   **Siroda**   Jakarta, Indonesia   06/24 – 07/25

- Designed and implemented an internal travel management platform to streamline company trip planning and approvals.
- Features included trip request, expense tracking, and reporting for better operational efficiency.
- Improved workflow speed by reducing manual approval processes by 40%.

Fullstack Develooper   **AgencyFlow**   Jakarta, Indonesia   02/24 – 03/24

- Developed AgencyFlow, a web-based system for managing teams, clients, and project workflows.
- Implemented modules for task assignment, progress tracking, and client communication.
- Enabled better team collaboration and increased productivity by 25% through structured workflow management.

EDUCATION

Senior High School   **SMK IDN**   Bogor, Indonesia   08/19 – 07/22

- Informatic Engineering

University   **Universitas Amikom Yogyakarta**   Bogor, Indonesia   2022 – 2026

- Infoormatics

CERTIFICATION

- **Dicoding Academy – Belajar Prinsip Pemrograman SOLID (2020)**
- **Dicoding Academy – Belajar Membuat Aplikasi Android untuk Pemula (2020)**
- **Dicoding Academy – Android Developer Expert (2020)**
- **SoloLearn – HTML, PHP, Java, SQL, JavaScript, C++, Python 3 (2021)**
- **Mikrotik – Certified Network Associate (MTCNA) (2022)**
- **Cisco Networking Academy – Cybersecurity Essentials (2023)**
